FWD-75X80L

75" BRAVIA 4K HDR Display with Google TV, including 3 years PrimeSupport

Overview

Your everyday entertainment, upgraded. This is the Sony BRAVIA X80L TV.
Featuring our ultra-wide Triluminos Pro colour palette, you'll see shades and hues on the X80L that you won't find on other displays.

Our X1 Processor is the power behind these bright, colourful pictures, analysing content in real-time, and enhancing everything displayed on screen.

The sound is delivered by our unique X-Balanced Speaker Unit for a thrilling, high-quality audio experience, with powerful bass.

Minimalist and timeless, the TV has been designed to suit any interior. The Flush Surface Bezel keeps your focus on the picture and the two-way stand offers ultimate convenience, fitting both wide and narrow furniture surfaces when necessary

You'll access 700,000+ movies and TV episodes from across your streaming services on this Google TV, and everything is organised into topics and genres to suit your personal interests.

Our new dedicated Gaming Menu allows you to optimise your gaming performance - quickly. It includes Motion Blur Reduction, a Black Equaliser, Crosshair (available in six different styles), and Custom Screen, that allows you to maximise your view when you need to see more detail in every corner of a game and minimise it when you need your eyes to focus on a target.

You can even save up to 32% more energy with our new BRAVIA range! Our new ECO Dashboard puts all of your eco settings in one place that's intuitive and user-friendly, so you can save energy without hassle or jargon.*

PrimeSupport: Our professional service package
You enjoy all the fantastic picture & sound quality of our consumer TV range, combined with the added peace of mind of our PrimeSupport Professional Service package and after sales support which includes:
- Access to our Elite helpdesk for integrator-focused, knowledgeable technical support
- Advanced Exchange of any faulty products, with technical assistance for swap & install on premise, wherever possible
-3 years standard cover , with option to extend by additional 2 years

*Default setting versus most energy efficient setting using ECO Dashboard. Consumption difference measured by 85X95L, percentage may differ by model

Features

Colours that bring the real world home with TRILUMINOS PRO
See billions of colours on screen, just as they are in the

real world, thanks to our 4K HDR Processor X1™ and a wide colour panel.

4K HDR Processor X1
Sony's powerful 4K HDR Processor X1 enhances colour, clarity and contrast for outstandingly lifelike 4K HDR picture quality.

A clearer picture, whatever you watch
Even your favourite content in 2K and HD are upscaled close to 4K quality. Our 4K X-Reality™ PRO uses a unique 4K database to recreate missing data.[1]

See everything, even in fast action scenes
Motionflow™ XR creates and inserts extra frames between the originals. With more images seen every second, action is smoother and sharper.

Brightness optimised, tuned to your room
A light sensor optimises brightness to room conditions, boosting brightness in light rooms and reducing it in dark ones so you always get an enhanced picture.

Great sound with more bass
Complementing the TVs slimness, our uniquely-shaped X-Balanced Speaker™ drives movies and music with clear sound and rich bass.

Room-filling Dolby Atmos® sound
Hear movie soundtracks and music playlists with more depth, clarity and detail. Dolby Atmos® draws you in deeper for seriously immersive spatial sound.[2]

What you want to watch all in one place
Browse 700,000+ movies and TV episodes from across your streaming services, all in one place and organised into topics and genres based on what interests you.[3]

Just say what you want to see - Hands-free Voice Search
Find favourites faster with voice search. Jump right to a show or movie just by saying it or try browsing with a voice search like "find action movies". Just say "Ok Google" to get started

Auto HDR Tone Mapping
Auto HDR Tone Mapping instantly optimises HDR settings during your PS5™ initial setup. Even in dark shadow and bright highlights, you'll see fine details and true colours

Auto Genre Picture Mode
BRAVIA™ automatically switches into Game Mode with PS5™ to minimise lag and maximise responsiveness. It switches back to Standard Mode when watching movies for more expressive scenes.[4]

Game Menu - One place for all your game settings
Never has it been easier to fine-tune your game status, settings and assist functions. All the essentials are at your fingertips for ease and comfort.[5]

Flush Surface.
Enthralling viewing.
Our unique Flush Surface design gives the TV a clean, contemporary look. This is beauty that doesn't get in the way of your viewing.[6]

2-way stand, smart and versatile
Choose from a standard setting that focuses you on the picture or a narrow setting for smaller shelves.[7]

All your eco in one place
The Eco Dashboard keeps all eco-related settings in one place, making it easy to change them individually or in one go.

Greater peace of Mind

There's the added reassurance of our 3 Years PrimeSupport Professional service package as standard, with access to our EU-wide Elite Help Desk for technical support & advanced product exchange handled by local partner, on premise where possible. You can also choose to extend your support for an additional 2 years.

Notes

[1]4K: 3,840 x 2,160 pixels. Upscaled, simulated and enhanced 4K images will vary based on source content.
[2]Dolby Vision and/or Atmos content compatible streaming services or compatible content device connected via HDMI input (sold separately) required.
[3]Some apps, contents and/or features may not be available in all countries. Subject to availability.
User must connect to a Google account to use certain advertised features.

Google TV is the name of this device's software experience and a trademark of Google LLC. Google, YouTube, Chromecast built-in, Google Meet, and other marks are trademarks of Google LLC.

[4]This function works when Auto Picture Mode is ON
[5]Some features will be available via a future firmware update. Available functions may vary depending on model, region, or country.
[6]Actual look may differ depending on TV size.
[7]Actual look may differ depending on TV size.
